Examiner's Amendment

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this Examiner's amendment was given in a telephone interview and/or FAX request with Mr. Jonathan Owens on June 4, 2007.

The application has been amended as follows:

- Claim 14, line 8: after "intermediate film", the following phrase was inserted:
"to a thickness of 0.1 μm to 5 μm "; and
- Claim 17, line 6: after "intermediate film", the following phrase was inserted:
"to a thickness of 0.1 μm to 5 μm ".

Reasons for Allowance

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the claimed structural limitations.

While the Examiner deems that the prior art of record disclose the relative layer order due to the teaching of surface oxidizing (or nitriding) the magnetic film for improved adhesion, the Examiner notes that one of ordinary skill in the art would readily appreciate that a surface oxide or nitride layer is necessarily a thin (i.e. less than 100 nm thick) layer. As such, the Examiner deems that the present claims are neither disclosed nor rendered obvious by the combined teachings of the prior art of record.

Art Unit: 1773

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
